The AKC does not approve, license or endorse anyone engaged in selling purebred dogs. Any notation of "In Compliance" on this inspection report only denotes that the customer inspected at least met minimum standards for AKC compliance on the date of inspection.

## Areas of Non-Compliance

- Dog Identification
- Record Keeping
- Customer must meet AKC's Care and Condition policy
- AKC Executive Field Agent-Recommended Follow-up Inspection

This is a brand new facility 4 weeks old. It has 30 4x20 runs with 4x4 inside and 6'concrete and 8'pea gravel outside; 2 - 20x20; 2 -12x 20 and 3 - 8x20 . They are a breeding facility for cavaliers and they train in obedience and Lee has applied for CGC evaluator status. They will also board daily and long term as room is available. They have stainless steel panels and gates; vinyl between runs and epoxy on the floors. They have heated floors with hot water radiant heat. They building is air conditioned with 2 central air systems and you have ventalation on outside runs areas and has a furnace for back up heat. They have ceramic tile 7' to 9' in all areas where dogs are. Cynthia will also do grooming. There is a separate whelping area and a separate puppy area all visible thru glass from training room which is the centered. The entrance to the building houses a meet and greet area for families looking at puppys. The breeders live on site. They have a video security system that is state of the art. They feed Royal Canin who has visited the new facility and named them as Ambassador of the Breed when they opened. The dogs are in excellent health and they do screenings and have some dogs who have showed they produced. Their weights are good and the vet practices they have are healthy. They pass the evaluation as their paperwork.
